NEWPORT

Thomas F. Lewis died at the Yaquina Bay Hospital March 31, 1916, aged 80 years, 6 months and 25 days. He was born in New South Wales September 6, 1836, came to America when a young man and was a soldier in the Union Army during the Civil War and served four years. He was married to Mary E. Williams in April, 1866, and to this union one child was born. He came to Yaquina bay April 16, 1866 and took up a homestead near Chitwood where he lived for more than 30 years. He was a pioneer and passed through the trials, hardships and privations incident to the opening up of a new country. Mrs. Lewis died several years ago, since which Mr. Lewis lived a good deal of the time alone on his farm. His failing health admonished him that he must quit the farm and seek a more restful and quiet place, so he came to Newport and bought a nice piece of property where he expected to spend the remainder of his life. His daughter helped to build a very beautiful bungalow. Here he had lived three or four years enjoying his strolls on the beach and the ever changing beauties of the ocean. He evidently felt the end was nigh for he made his will the day before he died, but the will was not completed so it is void. A short song and prayer service was held at the undertaking parlors of Hollingsworth & Hartley, conducted by Mr. Se'ard of the Seventh Day Adventist Church of which the deceased was a member. The remains were taken to Chitwood and were laid to rest beside his wife in the Chitwood Cemetery. Funeral services were held in the little white Church on the hillside conducted by Rev. Dr. Carey of Norton. Some twenty members of the Church and friends from Newport accompanied the remains to Chitwood. He is survived by one daughter, Ella M. Baxter.

The benefit ball given by the Newport Civic Club at the Rod and Gun Club Hall Friday night, March 31st, was a very great success. About 50 couples were present, composed mostly of young people. The Harklerod Orchestra furnished the music, which was in harmony with the occasion and just suited the young dancers. The proceeds will be used to improve the city park grounds.

State Forester Elliott, C. S. Chapman, secretary of the Oregon Forest Fire Association, and W. V. Fuller of Dallas were in Newport. These gentlemen had been attending the annual meeting of the Lincoln County Fire Patrol association held at Toledo Tuesday. Mr. Fuller is one of the directors of the association. He is also a candidate for joint representative on the Republican ticket for Polk and Lincoln counties. He is a farmer and a large taxpayer in both counties. He comes well recommended from his own county as a man of solid worth and business capacity. These gentlemen are guests at the Abbey.

County Commissioners O. V. Hurt and W. F. Wakefield stayed over night Monday registering at the Abbey. W. E. Ball, the efficient assessor of the county, was in town during the week. The commissioners seem to have the road work of the county well in hand and the roads are being built where they are most needed. The dreadful Pioneer Mountain is now cut out and the road now goes up Simpson creek and down the Olalla on a three or four per cent grade. The Coast road to Siltz bay will be cut around Bald Mountain where a good grade can be had. Some \$3000 will be spent on this road this season. Some \$1200 or \$1500 will be spent on the Beaver creek road. The grades on the road to the Valley will be widened and lowered so as to make it a good deal better for both automobiles and wagon travel. In Newport it is the purpose of the road supervisor to plank the county road leading to the cemetery to the city limits and beyond further. This is a bad piece of road both Winter and Summer. I don't think it is the purpose of the county officials to create any more debt. Make roads, build bridges as fast as the taxpayers can afford them, but pay as we go. This is a good rule.

M. S. Durbin and H. B. Rankin of the Forest Reserve force were in town during the week. They had attended the meeting of the Fire Patrol association held at Toledo. Much interest is being taken to protect our timber from forest fires. The wealth of this county lies largely in the timber.

Last Sunday about a dozen members

of the Rod and Gun Club took launches and boats and went up the bay to shoot flags and loons for the purpose of settling their crops to send to the State Game Commission to have them examined to ascertain what kind of food these birds live on. If they live on fish they should be killed, if not they should be protected. About fifty birds were killed.

Bert Geer and W. E. Ball attended the meeting of the Rod and Gun Club.

WEST YAQUINA

A most unfortunate accident occurred last Friday afternoon when an entire snow load of household goods owned by Charles Ploughman, which was being towed down from Toledo by Ed Montgomery, was precipitated into the bay just above the Standard Oil Co's docks when an attempt was made to beach the snow after it had become swamped. Several men immediately rushed to Mr. Ploughman's assistance with boats. After several hours' work they succeeded in recovering a portion of the furniture and other goods from the water, but owing to their water-soaked condition the recovered articles are practically a complete loss. In speaking of the accident Mr. Ploughman said that being unfamiliar with the water he had not realized the danger though he had noticed the decayed condition of the snow, but on Mr. Montgomery's assurance that it was perfectly safe, had consented to place his goods upon it. They were compelled to work the pumps the greater part of the way down but even then Mr. Ploughman and his family, who accompanied him, anticipated no danger. Their loss is probably two hundred dollars or more. What remains of their goods have been moved to the Jack Daly place which they have rented, and
